Education

Kalinga Institute Of Industrial Technology Bhubaneswar, India
B.Tech in Electronics and Telecommunications Engineering(MAJOR) | Computer Science and Engineering(MINOR); OGPA: 8.31 *2018 - 2022*

Experience

Deloitte USI Bengaluru, India
Analyst *July 2022 - Present*

- **Increased financial data accuracy by 30%** by optimizing SAP BW4HANA and ABAP workflows, ensuring seamless integration within **Johnson and Johnson's Central Finance (CFIN) system**, supporting real-time financial reporting
- **Led the end-to-end development and deployment of 12+ critical enhancements**, collaborating with cross-functional teams to improve system efficiency and **reduce processing time by 25%**
- **Reduced reconciliation discrepancies by 40%** by implementing advanced data validation processes, ensuring seamless reporting and data consistency for key stakeholders
- Spearheaded the execution of **cutover strategies across five project cycles for Weyerhaeuser**, leveraging **DCUT tools and Microsoft Project**, optimizing data migration workflows, and **reducing downtime by 35%**
- **Ensured 100% on-time completion of critical data loads** by closely coordinating with **20+ functional teams**, aligning with business objectives and resolving dependencies in real-time
- **Reduced overdue tasks by 50%** through proactive tracking and engagement, ensuring adherence to the project timeline and key deliverables
- **Developed and deployed 15+ automated financial reports**, significantly improving visibility into **revenue, accounts receivable, and reconciliation processes**
- **Optimized SAP AR (Accounts Receivable) processes for Walmart**, enhancing RICEF (Reports, Interfaces, Conversions, Enhancements, and Forms) objects, **improving operational efficiency by 20%**

High Radius Technologies Remote
Intern *Jan 2021 - March 2021*

- **Increased payment processing efficiency by 35%** by developing an **invoice payment data forecasting model** using advanced **machine learning algorithms**, improving prediction accuracy for **payment timelines by 40%**
- **Spearheaded the development of a full-stack Invoice Management Application**, leveraging **ReactJS for the front end** and **Java/JSP for the back end**, improving invoice processing speed by **50%** and reducing manual effort by **60%**
- **Optimized backend data processing**, integrating **JDBC for seamless database connectivity**, reducing query response time by **45%** and ensuring real-time accuracy for **several invoices processed monthly**

Independent Projects

- **Unicorn Company Analysis**:
  - **Conducted an in-depth analysis of 500+ unicorn companies (2019–2021) using MySQL**,identifying the top 5 fastest-growing industries and mapping investment trends across different regions. Extracted key insights on funding patterns, valuation growth, and emerging market opportunities to guide data-driven decision-making.
  - **Optimized SQL queries to improve data retrieval efficiency by 30% and designed interactive Tableau dashboards**, enabling stakeholders to visualize funding distribution, sector-wise growth, and investor participation trends, leading to more informed strategic investment decisions.

Skills

- **Product Management:** Roadmap Planning, Feature Prioritization, Stakeholder Management, Agile Methodology, Product Strategy, Business Acumen, Market Analysis
- **Technical Skills:** Microsoft Project, JIRA, Confluence, SQL, Java, C++, Python, ReactJS, Tableau, Power BI
- **Project Execution:** Sprint Planning, Cross-functional Collaboration, Process Optimization
- **Soft Skills:** Problem-Solving, Communication, Data-Driven Decision Making, Leadership

Positions Of Responsibility & Achievements

- ***Consistently recognized with Outstanding feedback in annual performance appraisals with 2 spot awards.***
- ***Was named as one of the Top-200 students of KIIT through the AMCAT scores***
- ***Former Coordinator*** at NSS, *KIIT Bhubaneswar*
